AWESOME! I really enjoyed having Kris Shen as an instructor. He was clear and concise and was always willing to help. He is a great teacher and I feel like I learned a lot from the class. The class is tough but he gives you all the resources to exceed. I always felt comfortable asking questions. His slides and teaching style really worked for me.
Kris is a very nice professor and that is why I am putting in the effort in writing this because he deserve to know that he is a really good professor. He is also very passionate about what he is teaching. I really enjoy his class and I hope he keeps up this good work.
Kris is an all-star. Was always willing to help and accommodated my schedule when there were conflicts. Thank you so much Kris!!!
Professor Shen is a wonderful teacher who demonstrated great care for his students. He was always looking for ways to increase the effectiveness of his teaching, and always had a smile on his face. Thank you sincerely, Mr. Shen!
Professor was absolutely awesome. Loved his class and the way he taught. Exams and quizzes were very similar to the material he taught, which is a fault that a lot of professors have in my opinion. Great professor, did an amazing job with this class
Kris did a fantastic job presenting the material in a clear, organized manner. He worked through problems during lecture and described concepts using real-world examples. It was easy to tell that he is passionate about finance and eager to answer any questions and help us understand the material. I never thought I would have any interest in finance, but Kris has demonstrated how it is relevant to my work and life. I am very grateful to have had him as an instructor, and will certainly recommend his class to my peers.
He was very supportive throughout the entire class whenever you didn't understand something or needed additional help outside of class.
Kris Shen was one of my favorite professors so far at Fisher. He was great with explaining things at office hours and taking extra time to care for the students. When I attended office hours every week, he was clear and organized. His knowledge of the subjects and teaching style have enabled me to excel in the class. If he were to teach this class again, I would highly recommend him to other Fisher OSU students.
I wish there were more instructors like this one. It seems to be a goal of Fisher to lower class averages, but that is not conducive to learning. On one hand if things are too easy the same could be said. However, there is a way to not make exams artificially more difficult and truly give us students the opportunity to learn. There should not be such tremendous pressure placed on mid terms. Sure you may argue that in the real world we will face such pressures, but I feel like with this instructors exam style it retains most of that pressure without making over bearing in the sense that if you do not do as well as you wanted there is little you can do to recover.
